

Work-Fit® Ergonomic Staff Specialist

Work-Fit® is seeking an Ergonomic Specialist to identify musculoskeletal disorder (MSD) risks and provide innovative solutions at our Alcoa Aluminum client in Massena, NY. Work-Fit® provides cutting edge programming to our clients and their employees to make HEALTH personal. Responsibilities include, but are not limited to, developing MSD risk reduction and prevention programming, on-site ergonomic evaluations and assessments, utilizing data collected during evaluations and assessments to develop corrective programming, coordinate with the Safety, Engineering, Production Personnel, and Management departments to mitigate the MSD risk(s), generate and assemble reports to provide to the client, and communicate both written and verbally with various levels of personnel from Alcoa Massena.

QUALIFICATIONS:

- Bachelors Degree required (Master's Degree preferred) with a preferred emphasis in ergonomics, human performance, human kinetics, kinesiology, human engineering or a related ergonomics field
- Knowledge and proficiency in primary and secondary ergonomic analysis tools preferred
- Excellent time management skills and the ability to effectively coordinate multiple levels of programming
- Previous manufacturing experience is recommended
- Strong biomechanical analysis skills
- Strong analytical, technical and interpersonal skills
- Proficient communication skills

Work-Fit® Employee Benefits:

- Salary commensurate with experience
- Paid Time Off
- Health Insurance
- 401k Program
- CEU Stipend and paid CEU Days
- Professional Liability Insurance Paid
- Access to Work-Fit® University
- Achieve work-life balance with 40 hour workweek and no weekends

APPLICATION PROCESS: Submit cover letter and current resume to:

Or you may apply directly through our web page at www.work-fit.com

Work-Fit®, a division of Healthtrax® International, is the nationwide leader in managing on-site fitness, wellness, injury prevention, treatment and rehabilitation programs;

directed towards the reduction of musculoskeletal issues encountered in the work environment. We believe in treating the corporate/occupational worker as an “athlete”, because the "occupational athlete” has many of the same physical demands as a “traditional” athlete. Our goal is to deliver the same level of care afforded a professional athlete to keep them healthy and in the “game”.
